## **GM's CORNER**

**“ I HAVE HAD A GOOD  
INTRODUCTION TO  
WASTE MANGEMENT  
IN DOMINICA.” G.M.**

**Fuel Attendant Miss Ivenia Luke  
operating the fuel tank**

**It** is now just over 2 months since my arrival at Solid Waste. I have had a good introduction to waste management in Dominica and life at the Corporation. I cannot say that it has been dull for one minute. Before I joined, I knew this was going to be a challenging and demanding role. A lot of work has already been done, but there is still much to do. Over the coming months , I am

looking to every employee to be an ambassador for sound waste management practices on the island. Every employee is valued by the Corporation and the effort put into your jobs is much appreciated. Let us remember though, there is always room for improvement and as professionals we will always strive to achieve the best.

**The** Corporation now has its own refueling station. The tank holds 1000 gallons. The Fuel Attendant is Miss Ivenia Luke. She starts work at 7 am and leaves at 5 pm, Monday to Saturday. Drivers can now refuel at the Landfill. If Ivenia is **not present, or it's after 5 PM,** in the afternoon, the Collections Supervisor, Mr. Florian Mitchel or the Landfill Manager, Mr. Marcus Francis will assist you.

The Corporation has a reorder point of 500 gals of diesel in a deal with Petro Caribe. This means that our tank is never empty.

**ALWAYS WEAR YOUR  
PROTECTIVE CLOTHING !**

## DOMINICA SOLID WASTE MANAGEMENT CORPORATION
